

Improvements are coming to Kleinburg Village

JULY 2024 | NEWSLETTER #2

Dear resident and/or business owner,

The City of Vaughan is undertaking important infrastructure improvements within Kleinburg Village, including watermain replacement, road reconstruction work and streetscaping improvements. These enhancements support the City's continued commitment to ensuring the long-term sustainability of municipal infrastructure.

Construction update

The Kleinburg Village Improvements project will take place over three phases to minimize disruption. The first phase will include watermain replacement work in the following areas:

- Nashville Road, from Highway 27 to Islington Avenue
- Islington Avenue, from Nashville Road to Bell Court
- Islington Avenue, from Kellam Street to Stegman's Mill Road

This work is scheduled to begin in July 2024 and be completed by the end of 2024.

The second phase of construction will begin in 2025 and include aboveground road work. Phase 3 will commence in 2026 and will include streetscaping, final road restoration and the installation of new cycle paths.

The entire project is anticipated to be completed by fall 2026.

Important reminders

Garbage pickup will continue as per the City's waste collection schedule.

Roads will remain open to local traffic throughout construction. Temporary staged traffic diversions and pedestrian detours will be required to allow construction activities to proceed in a safe and efficient manner. Signage will be in place to guide traffic.

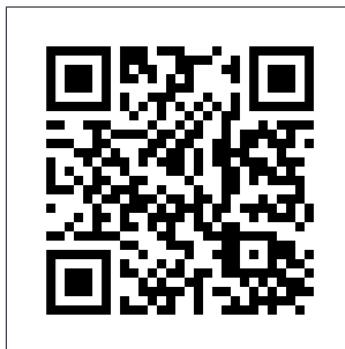

Business owners that require assistance in co-ordinating deliveries during construction are reminded to please contact the City's Infrastructure Delivery department.

Business and property owners are reminded that underground systems, such as lawn sprinklers, heated driveways, electrical conduits, or landscaping, etc., within City-owned boulevards or property limits, may be impacted by the proposed construction work. Removing privately owned underground systems in advance of construction, at the owner's expense, is recommended. The City is not responsible for any damages that may occur during construction to privately owned items within City property limits (Encroachment By-law No. 034-2017). The City appreciates your co-operation and patience.
